Connections

Rack Installation

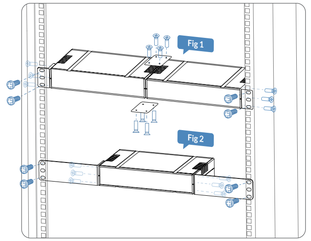

Fig 1: Installation of two units side-by-side with short rack ears and retainer plates
Fig 2: Single-unit installation with long rack ears

2. Getting Started

1. Connect the supplied antennas.

   Note that the antennas for WiFi and cellular are not interchangeable. The two WiFi antennas have a reversed connection (RP-SMA) to match industry standards. The WiFi antennas are marked on the base with a sticker.

2. Connect to the internet by inserting a SIM card, connecting a USB modem, or connecting an Ethernet cable to the WAN port.

3. Power up your device.

4. Activate your device via the touchscreen or Web UI.

- **Via the touchscreen**

1. Scan the QR code to access the Speedify website.
2. Sign in to your Speedify account (or create a new account), and the device will automatically be linked.
3. Tap **"Go to use"** on the screen to start using the device.

- **Via the Web UI**

1. Connect the computer to the CONFIG port of the device with a USB-C cable.
2. Type in **192.168.88.1** in your web browser to access the Web UI.
3. Enter the default, case-sensitive username and password (both Admin) in the SIGN IN page.
4. Scan the QR code or click **"click here"** on the pop-up to access the Speedify website.
5. Sign in to your Speedify account (or create a new account), and the device will automatically be linked to your account.
6. Switch back to the Miri Web UI webpage, and click **"Go to use"** to start using the Web UI.

3. Warranty

Miri offers a one-year Limited Warranty on the miri X510 and its matching antennas. Other accessories and free items included with the product are not covered. For more detailed information, refer to miri.tech/warranty
